

Klajdi Mexhaj

FULL STACK DEVELOPER

Profile

Dedicated and results-driven ICT student with a strong foundation in web development and programming, currently pursuing a bachelor's degree in Information and Communication Technology (graduating Summer 2025). Skilled in developing dynamic, responsive web applications using Python, Django, and Flask, with a focus on backend development, database integration, and user experience. A collaborative and adaptable professional, committed to continuous learning and delivering innovative solutions in the tech industry.

Employment History

Web Developer

Jan 2024 – Present

- **Key Responsibilities:** Spearhead **full-stack development projects** from concept to completion, delivering dynamic and scalable web solutions tailored to client needs.
Develop **responsive, user-friendly websites** using Python frameworks like Django and Flask, integrated with **HTML, CSS, and JavaScript**.
Implement **robust backends** with effective database management and efficient API integration.
Design and code **visually appealing frontends**, ensuring seamless interaction and functionality for users.
- **Notable Achievements:** Completed numerous projects, including fully functional **web applications** with interactive UI components and secure, scalable architecture.
Delivered innovative solutions involving **complex database management** and real-time application features.
Improved web performance and user experience through **optimization techniques** and modern development practices.
- **Technical Expertise:** Proficient in **backend development**, including database design, query optimization, and API creation.
Experienced in **frontend development** with a focus on responsive design, cross-browser compatibility, and interactive elements.
Adept at working in **agile environments**, using tools like Git and GitHub for version control and collaboration.
- **Key Attributes:** Demonstrated ability to handle **end-to-end project development**, ensuring high-quality deliverables on time.
Continuously explore new technologies and frameworks to enhance development practices.
Recognized for adaptability and commitment to delivering **innovative and efficient web solutions**.

Dominusoft | Full-Stack Developer Intern

- **Key Achievements:** Successfully designed and developed my **first complete website**, independently managing both frontend and backend development. Utilized **Python** and modern frameworks to build a functional and user-friendly web solution. Gained hands-on experience in **full-stack development**, covering design, coding, debugging, and deployment.
- **Technical Skills Acquired:** Strengthened knowledge of **Python frameworks**, such as Django and Flask. Developed proficiency in **frontend technologies** (HTML, CSS, JavaScript) and their integration with backend systems. Improved understanding of **web development workflows**, including database integration, version control (Git), and UI/UX principles.
- **Impact:** Deepened my passion for web development by delivering a tangible product and acquiring practical skills. Prepared for more advanced projects by enhancing my confidence in tackling complex development challenges.

Education

Bachelor's Degree in Information and Communication Technology, Faculty of Science and Natural , Tirana

OCTOBER 2022 – PRESENT

Bachelor's Degree in Information and Communication Technology

- Consistently achieving **excellent academic results** throughout the program.
- Gained a solid foundation in **technology principles, programming, and communication systems**.
- Developed skills in **problem-solving, critical thinking, and innovative solution design**.
- Equipped with the expertise to tackle **real-world challenges** and contribute to the tech industry.
